Annals of Clinical Biochemistry

VOLUME 28, 1991

The Journal of the Association of Clinical Biochemists
edited in collaboration with de Nederlandse Vereniging voor Klinische Chemie
published by Royal Society of Medicine Services Limited

Volume 28, Part 1, January 1991

Personal View

1 Developments and changes in clinical chemistry in the Netherlands
M P van Dieijen-Visser, P J Brombacher, G T B Sanders

Review Articles

5 A review of the role of established tumour markers
G H Beastall, B Cook, G J S Rustin, J Jennings

19 The role of magnesium in clinical biochemistry: an overview
M F Ryan

27 Assessment of oxygenation in the critically ill
M C C Clapham

Original Articles

34 Hepatic changes and serum ferritin in pancreatic cancer and other gastrointestinal diseases: the role of cholestasis
D Basso, C Fabris, G Del Favero, R Meggiato, M P Panozzo, D Vianello, M Plebani, R Naccarato

39 The short-term effect of nicotinic acid on intermediary metabolism in insulin-dependent diabetes mellitus
P J Hale, M Nattrass

44 Elevated serum and urine sialic acid levels in renal diseases
T Özben

49 A semi-automated micromethod for the determination of calcium and phosphorus in human milk
M A Laskey, B Dibba, A Prentice

55 A multilayer membrane system for blood plasma isolation for use in primary health care
A P M van Oudheusden, H D W Roesink

60 Assessment of theophyssline compliance in general practice using a 'compliance index' based on apparent drug clearance
J D Watson, C E Langan, M J Stewart

68 Protein interference with ion-selective electrode measurement depends on reference electrode composition and design
R B Payne, B M Buckley, K M Rawson

73 Multicentre comparison of the Novo Biolabs immunometric CK-MB assay with four established methods
R W Wulkan, J van Loon, A Stark, G J M Boerma, M C J M Verdegaal, B van den Berg, J H M Souverijn, G T B Saunders

78 Comparison of the diagnostic utility of timed serial (slope) creatine kinase measurements with conventional serum tests in the early diagnosis of myocardial infarction
F Y Leung, A P Griffith, G Jablonsky, A R Henderson

83 Specificity of two-site immunometric assays
B Perry, R S Chapman, M G McConway, D Griffin, G H Beastall

87 Scintillation proximity assay: determination of steroid hormones without separation of antibody-bound and free ligand
L M J W Swinkels, H A Ross, Th J Benraad

91 Progress in immunoassays for serum prolactin: evidence from the UK External Quality Assessment Scheme (EQAS) 1980–1989
I Hanning, J Seth, R R A Bacon, W M Hunter, R Al-Sadie

98 Effect of bilirubin on uricase-peroxidase coupled reactions. Implications for urate measurements in clinical samples and external quality assessment schemes
D A Hullin, M T G McGrane

Short Reports

101 Can creatine predict further major cardiovascular events after acute myocardial infarction?
J R Delanghe, M L De Buysere, G G Leroux-Roels, D L Clement

103 Failure of creatine kinase slope values to reliably predict acute myocardial infarction
S G Vijan, A R Ingle, P G Hill, M W Millar-Craig

105 Serum progesterone concentration is raised during early follicular phase in women with polycystic ovaries
S Bojanic, R Lake, J Place, L Jones, J F Laycock, G D Carter, J Alaghband-Zadeh

107 Biocarbonate interference with Hitachi chloride electrodes
A M Faulkner, M J Peake

109 C-reactive protein and cardiopulmonary bypass in infants under 5 kilograms
I M Mitchell, J C S Pollock, M P G Jamieson, S F O'B Donaghey, R D Paton, R W Logan

Letters

111 Quality assurance of interpretation
J M Rattenbury

111 Author's reply
A Hutchesson

112 Storage of heparinized blood
C J Pearce, M P Bosomworth

113 Direct assays for adrenal steroids in neonates
A M Wallace, G H Beastall

115 **Piscator**

116 **Referees**

Volume 28, Part 2, March 1991

Personal View

117 Ideas towards audit in clinical biochemistry
A Waise, J R McMurray

Review Articles

119 The analysis of bilirubin in serum
A Westwood

131 Calcium and phosphorus metabolism in the premature infant
P D Mayne, I Z Kovar

Original Articles

143 Feedback of laboratory usage and cost data to clinicians: does it alter requesting behaviour?
R Gama, P G Nightingale, P M G Broughton, M Peters, G V H Bradby, J Berg, J G Ratcliffe

150 Development and evaluation of the simultaneous determination of sweat sodium and chloride by ion-selective electrodes
H M Barbour

155 Use of a silver-enhanced gold-labelled immunoassay for detection of antibodies to the human immunodeficiency virus in whole blood samples
B F Rocks, N Patel, M P Bailey

160 A two-site immunoradiometric assay for PTH(1–84) using N and C terminal specific monoclonal antibodies
F C Logue, B Perry, R S Chapman, I Milne, K James, G H Beastall

167 Preanalytical errors in ionized calcium measurements induced by the use of liquid heparin
C Sachs, P Rabouine, M Chaneac, C Kindermans, M Dechaux, T Falch-Christiansen

174 Transferrinuria in type 2 diabetes: the effect of glycaemic control
M J O'Donnell, J Watson, P Martin, C Chapman, A H Barnett

179 Improved procedure for the second-derivative spectrophotometric analysis of carboxyhaemoglobin
H Verweij, H A Bonte

Short Reports

183 Enzymatic measurement of 3-hydroxybutyrate in extracts of blood without neutralization
P A Ruell, G C Gass

185 Evaluation of the Helena REP automated electrophoresis instrument for the measurement of glycated haemoglobin
J Keating, A Pattison, R A Sherwood

187 The effect of semen contamination on the concentration of low molecular weight proteins, albumin and total protein in male urine
A Blumsohn, A Price, B W Morris, H Griffiths, T A Gray

189 An automated enzymic assay for plasma alanine with simplified sample preparation
S Schonfield, M Rodger, M Hjelm

192 A specific assay for serum intestinal alkaline phosphatase utilizing fluorescein labelled monoclonal antibody and antifluorescein antibody coupled to magnetic particles
P Scott, G A Maguire

Case Report

194 Differential response of serum alkaline phosphatase and serum osteocalcin in Paget's oesteosarcoma
M W J Davie, M Worsfold, C A Sharp

Letters

196 Influence of monoclonal immunoglobulins on methods for inorganic phosphorous
E Duly, L Lemon, T R Trinick

196 Delayed diagnosis of Addison's disease
A Waise

197 Measurement of pancreatic amylase in macroamylasaemic sera
T E Miflin, D E Bruns

198 Microalbuminuria in diabetes mellitus
A S Hutchison

Personal View

207 The importance of imprecision
C G Fraser, P H Petersen

Review Article

212 Alcohol and the laboratory in the United Kingdom
J W Wright

Original Articles

218 Primary hyperaldosteronism in England and Wales: A review of the use of a Supraregional Assay Service laboratory for the measurement of aldosterone and plasma renin activity
F Short, V H T James

226 Pseudohyperphosphataemia in multiple myeloma
R C W Hawkins

229 Hypercalcaemia due to calcium binding by a polymeric IgA κ-paraprotein
C J Pearce, T H Hine, K Peek

235 Effects of ionic strength on ionized calcium measured using reference electrode liquid junctions of varying design and composition
R B Payne

240 *In vitro* evaluation of heparinized blood sampler for ionized calcium measurement
C Sachs, P Rabouine, M Chanaec, C Kindermans, M Dechaux

245 The effect of weight correction on risk calculations for Down's syndrome screening
T M Reynolds, M D Penney, H Hughes, R John

250 Different effects on oestrogen binding sites and anti-oestrogenic action of danazol and progesterone
T Tamaya, K Wada, H Mori, A Imai

253 Overestimation of monoclonal immunoglobulin by immunochemical methods
P G Riches, J Sheldon, A M Smith, J R Hobbs

260 Nasal secretions from patients with polyps and healthy individuals, collected with a new aspiration system: evaluation of total protein and immunoglobulin concentrations
J Biewenga, A E Stoop, H E Baker, S J Swart, J J P Nauta, G J van Kamp, S van der Baan

267 Immunoreactive endothelin in human kidney
S Morita, K Kitamura, Y Yamamoto, T Eto, Y Osada, A Sumiyoshi, M Koono, K Tanaka

272 A comparison of analytical goals for haemoglobin A_{1c} assays derived using different strategies
M L Larsen, C G Fraser, P H Petersen

279 Fructosamine in diabetes screening of the elderly
S C M Croxson, S Absalom, A C Burden

283 A sandwich enzyme-linked immunosorbent assay for β_2-glycoprotein I
P A Sansom, C T Marlow, M Lapsley, F V Flynn

290 Enzymatic determination of bilirubin in serum of newborns—any advantage over previous methods?
H Schlebusch, C Schneider

Short Reports

297 Reference ranges for free catecholamine/creatinine ratios in random urines from normal children aged 5 to 16 years
P Reed, D Bu'Lock, A Jones, T Layton

299 Maternal serum CA125 is not a second trimester marker for Down's syndrome
K Spencer

301 False positive reactions in total IgE analysis of amniotic and cerebrospinal fluids
A W van Toorenenbergen, A M Vermeulen, M H W M Roovers

303 Monitoring of renal transplant graft function by regular postal capillary blood sampling
J T C Kwan, P J D Foxall, M R Bending

305 Enzyme immunoassay of hyaluronic acid in serum and pleural fluid using sheep brain hyaluronectin
C Maingonnat, B Delpech

307 Serum gamma glytamyl transferase activity in epileptic patients receiving carbamazepine monotherapy
A B Okesina, D Donaldson, P T Lascelles

309 Observed changes in serum potassium concentration following repeat centrifugation of Sarstedt Serum Gel Safety Monovettes after storage
D P Hue, L S Culank, P D Toase, G A Maguire

311 Interference of fluorescein with creatinine assays
J B C Dick, W A Bartlett, U Ibrahim, J A Coleiro

Case Report

314 Fluorescein interference in digoxin assays: An isolated case?
J R Paterson, R Weston, R Blackie, W D Neithercut

Letters

316 Correction of fructosamine values for total protein during pregnancy
D H Schlebusch

317 Author's reply
D R Lloyd

318 The relationship between serum cholesterol and serum thyrotropin in women with peripheral arterial disease
J T Powell, G Carter, N Woolcock, R M Greenhalgh, P B S Fowler, J Alaghband Zadeh

Volume 28, Part 4, July 1991

Original Articles

321 Renal insufficiency and secondary hyperparathyroidism in elderly patients
G Turner, R C Brown, A Silver, G Seymour, J S Woodhead

327 Post-traumatic hypothalamic-pituitary dysfunction presenting with biochemical features of primary hypothyroidism
I R Gunn, G H Beastall, D M Matthews, J C J L Bath

331 Are patients with low serum thyroid stimulating hormone and normal total thyroxine hyperthyroid? Usefulness of 99mTc pertechnetate uptake
R S Jackson, R Jewkes, G D Carter, J Alaghband-Zadeh

335 The clinical utility of a non-isotopic two-step assay (DELFIA) and an analogue radioimmunoassay (SimulTRAC) for free thyroxine compared
G J Beckett, E Wilkinson, P W H Rae, S Gow, P S-C Wu, A D Toft

345 Enzyme immunoassay of serum erythropoietin in healthy children: reference values
M Pressac, G Morgant, M A Farnier, P Aymard

351 Safe, stable, whole blood samples for quality assessment of glucose measurement by non-laboratory staff
J Ambler, N S Brown, G Walker

354 Screening for hyperlipidaemia in diabetes mellitus. Relationship to glycaemic control
J R Paterson, A R Pettigrew, M H Dominiczak, M Small

359 A comparison of commercial kits for the measurement of lipoprotein(a)
M M Dagen, C J Packard, J Shepherd

365 Influence of sex and age in the risk of urolithiasis—a biochemical evaluation in Indian subjects
B Sarada, U Satyanarayana

368 Chemical diagnosis of Fabry's disease by fluorometric assay and fast atom bombardment/mass spectrometry
T Nakanishi, S Funahashi, T Funai, T Hashimoto, A Shimizu

373 Purification of human pancreatic lipase and the influence of bicarbonate on lipase activity
K Iizuka, H Higurashi, J Fujimoto, Y Hayashi, K Yamamoto, H Hiura

379 Potential of descriptive linear discriminant analysis for studying clinical chemical and haematological data from persons with heterozygous sickle cell disease
M Volmer, F A J Muskiet, F R Hindriks, W van der Slik

386 Bhattacharya: a new application for quality control
W P Oosterhuis, T A Modderman, R B Dinkelaar, A H Zwinderman, H J van der Helm

393 Analytical goals for interference
X Fuentes-Arderiu, C G Fraser

396 Use of a non-extraction HPLC technique for measuring angiotensin-converting enzyme under optimum conditions
M N Badminton, C M Dawson, S J Rainbow, T R Tickner

401 Rapid enzymatic method for the measurement of mannitol in urine
J Blood, A R Ingle, N Allison, G R Davies, P G Hill

407 Development of a rapid latex enhanced turbidimetric assay for retinol binding protein in urine
H Thakkar, J Cornelius, D M Dronfield, E A Medcalf, D J Newman, C P Price

Short Reports

297 Reference ranges for free catecholamine/creatinine ratios in random urines from normal children aged 5 to 16 years
P Reed, D Bu'Lock, A Jones, T Layton

299 Maternal serum CA125 is not a second trimester marker for Down's syndrome
K Spencer

301 False positive reactions in total IgE analysis of amniotic and cerebrospinal fluids
A W van Toorenenbergen, A M Vermeulen, M H W M Roovers

303 Monitoring of renal transplant graft function by regular postal capillary blood sampling
J T C Kwan, P J D Foxall, M R Bending

305 Enzyme immunoassay of hyaluronic acid in serum and pleural fluid using sheep brain hyaluronectin
C Maingonnat, B Delpech

307 Serum gamma glytamyl transferase activity in epileptic patients receiving carbamazepine monotherapy
A B Okesina, D Donaldson, P T Lascelles

309 Observed changes in serum potassium concentration following repeat centrifugation of Sarstedt Serum Gel Safety Monovettes after storage
D P Hue, L S Culank, P D Toase, G A Maguire

311 Interference of fluorescein with creatinine assays
J B C Dick, W A Bartlett, U Ibrahim, J A Coleiro

Volume 28, Part 5, September 1991

Review Article

427 Clinical value of apolipoprotein measurement
D Dhatnager, P N Durrington

Original Articles

438 Medical training in clinical biochemistry (chemical pathology) in Scotland 1985–1989
J R Paterson, W G Simpson, W D Neithercut

442 Effect of fasting, self-selected and isocaloric glucose and fat meals and intravenous feeding on plasma zinc concentrations
H F Goode, D A F Robertson, J Kelleher, B E Walker

446 The effect of standard oral calcium load given in two different forms on plasma ionized calcium and serum PTH
I R Bailey

450 A simple approach to screening for microalbuminuria in a type 1 (insulin-dependent) diabetic population
K C McHardy, M E Gann, I S Ross, D W M Pearson

456 Increased urinary transferrin excretion in exercising normoalbuminuric insulin-dependent diabetic patients
M J O'Donnell, P Martin, D Cavan, A Parkes, J Chapman, C Chapman, A H Barnett

461 Determination of kappa and lambda light chains in serum immunoglobulins G, A and M
Á Haraldsson, M J H Kock-Jansen, M Jaminon, P B J M v Eck-Arts, T de Boo, C M R Weemaes, J A H M Bakkeren

467 External quality assessment of total urinary protein estimation in the United Kingdom
R E Chambers, D G Bullock, J T Whicher

474 Quantitative turbidimetric assay for determining myoglobin evaluated
J Delanghe, J-P Chapelle, M El Allaf, M De Buyzere

480 Hormonal factors associated with weight loss in patients with advanced breast cancer
M L Knapp, S Al-Sheibani, P G Riches, I W F Hanham, R H Phillips

487 Multiple releasable fluorescein labels for immunoassay: the principle illustrated by an immunoassay for antibodies to the human immunodeficiency virus
V M Bertram, M P Bailey, B F Rocks

492 Development and validation of a fluoroimmunoassay for urinary normetanephrine
G Gallacher, G W Mellor, J Landon, L Sjostrom

497 Detection of human pancreatic pro-phospholipase A_2 activation using an immunoassay for the free activation peptide DSGISPR
A M Gudgeon, G Patel, J Hermon-Taylor, P Hurley, R C Bowyer, A M T Jehanli

504 Measurement of malondialdehyde in plasma by high performance liquid chromatography with fluorimetric detection
I S Young, E R Trimble

Short Reports

509 The incidence of asymptomatic hypothyroidism in new referrals to a hospital lipid clinic
M J O'Kane, R D G Neely, E R Trimble, D P Nicholls

512 Primary hepatocellular carcinoma in Zimbabwe: frequency of abnormal biochemical investigations
H T Marima-Matarira, O Gudza

514 Relative sensitivity of serum and urinary retinol binding protein and alpha-1 microglobulin in the assessment of renal failure
J O I Ayatse, J T C Kwan

517 Use of the difference plot in determining bias in luteinizing hormone immunoassay
M A Pollock, D Bu'Lock, J Kane

Case Reports

519 A case of transient hyperphosphatasaemia of infancy associated with a probable allergic disorder
K Tanishima, Q Yang, T Hashimoto, M Nagata, F Matsubara, T Miyawaki

524 Changes in erythrocyte zinc in a case of transient thyrotoxicosis
A Y W Chan, Y T Mak, C C Shek, R Swaninathan

Letters

526 Second IRP [80/558] hTSH standard composition influences specificity assessment of an hFSH immunometric assay
M G McConway, R S Chapman, B Perry, G H Beastall

527 The role of established tumour markers
A van Dalen

528 Author's reply
G H Beastall

Books

529 Muscle Metabolism.
By J B Harris, D M Turnbull
Reviewed by K Poulton

Volume 28, Part 6, November 1991

Editorial Matters

531 Editorial guidelines
S P Halloran

532 Uniform requirements for manuscripts submitted to biomedical journals
International Committee of Medical Journal Editors

Review Articles

542 Growth, growth hormone and the somatomedins: a historical perspective and current concepts
B T Rudd

556 A critical assessment of current analytical methods for the routine assay of serum total protein and recommendations for their improvement
A B St.l Dawnay, A D Hirst, D E Perry, R E Chambers

Original Articles

568 Diagnosis of the abuse of magnesium and stimulant laxatives
A Duncan, A Cameron, M J Stewart, R I Russell

574 Estimation of fetal lung maturity by assessment of lamellar body particle concentration
B K van Kreel

581 The determination of oxalate in urine and plasma by high performance liquid chromatography
I D R Fry, B J Starkey

588 A broad spectrum immunoassay using fluorescence polarization for the detection of amphetamines in urine
G J Turner, D L Colbert, B Z Chowdry

595 Plasma C1 inhibitor in malignant diseases: Functional activity versus concentration
D Starčević, Z Jelić-Ivanović, V Kalimanovska

599 Apolipoprotein E phenotyping: A word of caution
P R Wenham, A Sedky, R J Spooner

606 Properties of serum alcohol dehydrogenase in Nigerians with primary hepatoma
I O Ogunleye, S O Olusi

613 Collection and storage of capillary blood in glass fibre filters for glycated haemoglobin measurement by a micro-colorimetric method
M L Ng, B S Sazali, B A K Khalid

Short Reports

618 The relative clotting activity of glycated and non-glycated forms of fibrinogen
P W Robinson, D R Jury, A G Langdon

620 Equilibrium dialysis free T_4: An evaluation of its clinical usefulness as a supplementary test in the routine laboratory
H Wilkinson, B Fiddy

622 Biological variation of urinary oxalate in different specimen types
Z E C Balchin, P A Moss, C G Fraser

624 Measurement of creatinine in peritoneal dialysis fluid
S C Farrell, M P Bailey

Letters

626 Creatine kinase in diagnosis of myocardial infarction
H A Chandler

626 Author's reply
S G Vijan, A R Ingle, M Millar-Craig, P G Hill

627 Author's reply
F Y Leung, A R Henderson

627 Alkaline phosphatase and rickets in the premature infant
P M Crofton

628 Hypertonic versus isotonic salt bridges in ion-selective electrode based clinical analysers
P D'Orazio, D Verghese

629 Author's reply
R B Payne
